Vidro offers all the elements to complete the room – credenzas, cabinets, serving carts, lecterns and wall-mounted marker boards. Our portfolio of technology options gives you numerous choices with both surface and under-table connectivity. We can also provide customized solutions with under-table podiums to handle high-capacity IT requirements.

Caucus, huddle, small conference...

Whatever you call it, it's the place you go to for small meetings. A fresh look at tables can add real life to any meeting room.

Now, you can liven up any meeting room with a Vidro painted back glass table. Choose your color, table shape and base style. When it comes to size, you can fit groups of four to twelve people. Look at round tables from 42" - 120" in diameter, square tables from 42" - 84", or customize a configuration to suit your needs.

Vidro gives you unlimited options for your meeting rooms.

15

16

Café, breakroom or lunchroom...

Unwind in style around a Vidro table.

Here is where you can take a break from your regular color choices. Why not paint outside the lines with candy colors or metallics? Vidro tables are designed to set the mood and adapt to the need.

In addition to the shapes and colors, choose from 29" seated height, 36" counter height or 42" bar height. Mix and match as required.

Customize with confidence

Your size?

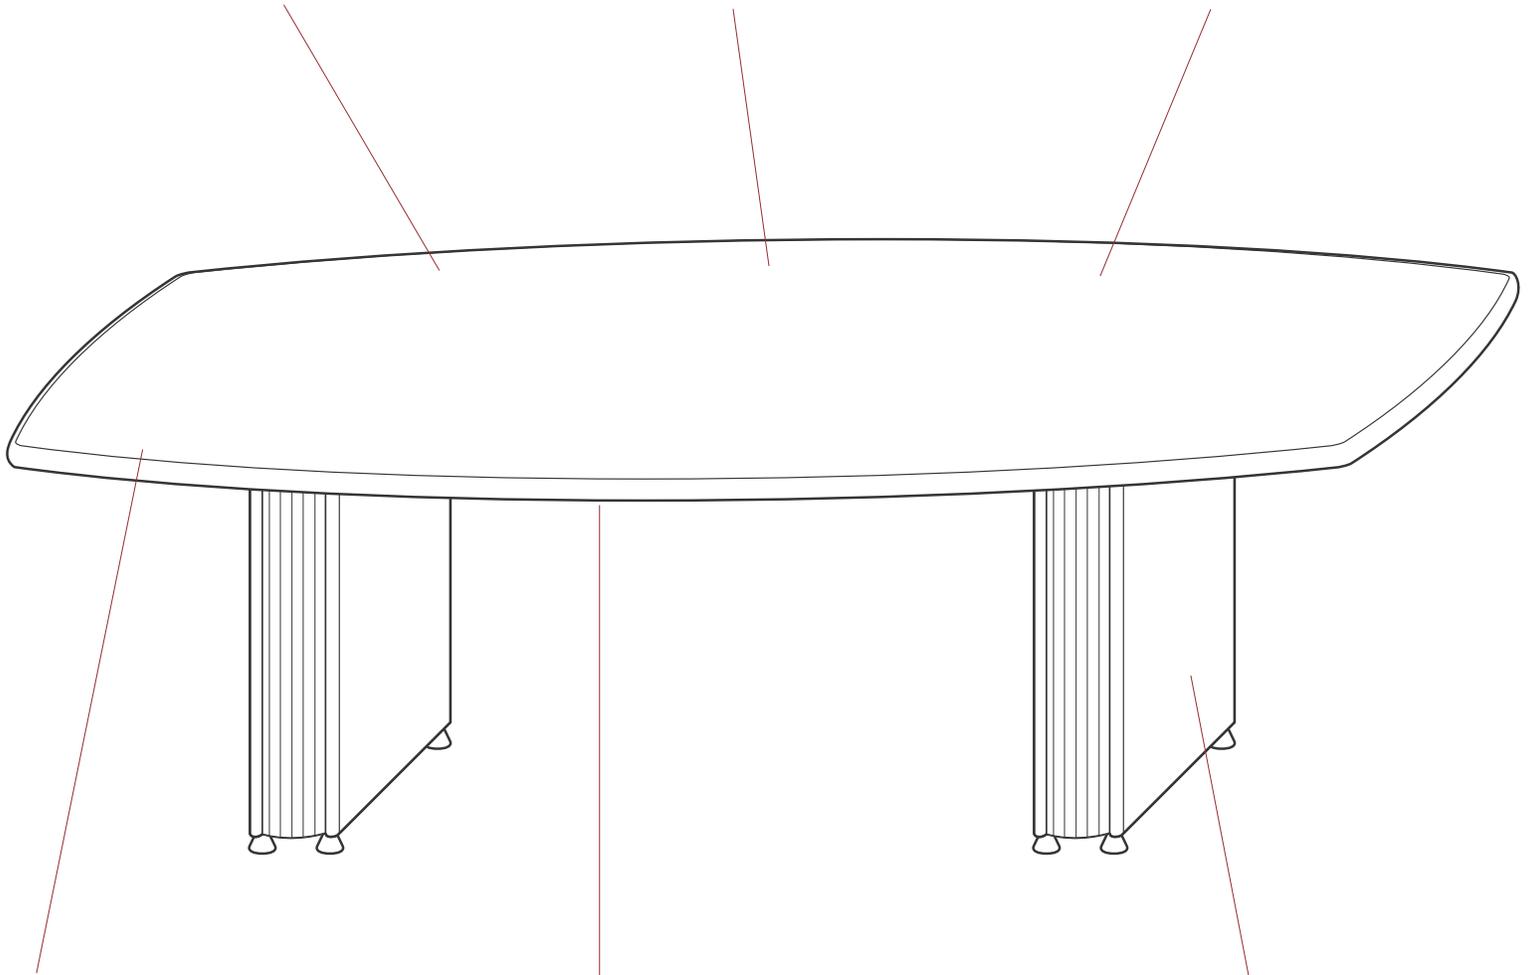

Whether it's a small change or a radical departure from our popular sizes, talk to us about creating a table that fits your precise requirements.

Your shape?

Take our existing shapes as your starting point, and then customize to suit your needs. We think outside the box every day, and invite you to do the same.

Your color?

Our popular Colora colors are just the beginning. Bring us any color sample, whether it's from a paint book, Pantone® or other industry specifier and we'll take it from there.

Your height?

Tall, short, or anywhere in between, we can create a table at a height that meets your specs.

Your technology?

We already handle all of the standard IT requirements, but we can adapt to your equipment, connectivity or unique interface conditions.

Your base finish?

Like all other aspects of Prismatic tables, you can customize the base finish. Let us know what you have in mind.

Looking beyond the norm...

As true craftsmen, we strive for beauty and grace in every table we build. But we understand the practicalities of the day-to-day workplace. And so we build our tables to ensure that they perform, that they integrate the requirements of technology and that the finishes sparkle for years to come.

Glass

Now you have the choice of a new finish to help you make a real statement. In a world of wood, stone and laminate finishes, count on painted back glass to stand out. And since you have a free range of colors, your statement can be subtle or brash. It's up to you.

Precision

It's always the small details that tell the story. Take a moment to examine how we've engineered the meeting of the glass to the supporting subtop. This exacting approach to combining materials reflects our philosophy of precise construction that is inherent in every aspect of every table.

Color

Vidro gives you optimum color choices for your tabletop. We offer over 20 colors and can easily match all Pantone® and other paint specs. So make the choice that suits your project. You won't shock us, and we'll come through with flying colors.

Customize

We have the greatest range of tables in the business, but if that's not enough, we'll work with you to suit your needs. Whether it's a variation in detailing, technology, size, shape or finish, with Prismatic you can customize with confidence and count on us to deliver the perfect solution.
